SEVES GLASS BLOCK

LightWise®

Architectural Systems

PRECAST CONCRETE & GLASS PAVER PANELS

DESIGNED, ENGINEERED & TESTED PRE-FABRICATED PANELS

Glass Paver & Precast Concrete Panel Systems allow light to be shared between levels of a building. They allow light to travel through the floor to brighten a space below, or create a decorative feature at night as the light shines up from underfoot. A glass block flooring option that is easy and quick to install. It is the most durable horizontal glass system in the world.

- Designed & Engineered for Durability
- Withstand Any Type of Climate
- Air & Water Tight
- Up to 200 lb Live Load
- Available ASHTO HS 20-44 Bridge Loading

- Ideal for:

  - Sidewalks/ Vault Lighting
  - Stairs and Landings
  - Balconies
  - Patios

Precast Concrete and Glass Paver Panels

Orbis

Orbis is a unique option for both horizontal and vertical applications. All the elements for structures that require maximum strength, but with a flair for the design component. These 7.5” round pavers and block are available in several formats.

Photovoltaic Options

Photovoltaic transforms the already eco-friendly glass block into a new building instrument, ideal for brightening exterior applications while conserving energy. Seves Photovoltaic Pavers features solar powered, low-voltage illuminating glass pavers - a fast, easy and low-cost alternative to electrical ground lighting. Add soft droplets of light to dark exteriors or create glowing walkway patterns all without the need for intricate electrical installation, wiring or maintenance.

Customize Your Horizontal Glass Paver System

As with our other glass block systems, the LightWise® Architectural Horizontal Systems are easily customizable for your project requirements.

Shape

Many glass Paver options are available from round, square, rectangular, custom, and historic pavers.
