

Standard Glass Block Patterns

Nubio

Intersecting random wave pattern offers maximum light transmission and subtle visual distortion.

Nubio Bronze

Nubio pattern made with bronze colored glass.

Diamond (DM)

Diamond pattern with raised sphere for moderate light transmission and privacy

Aktis

Diamond cut pattern creates a unique pattern of light with maximum light transmission and moderate visibility.

Ice

Maximum light transmission without a fixed geometric design.

Clarity

Faces are smooth and undistorted to transmit the most light and ultimate visibility.

Each offers its own unique style, degree of light transmission and privacy. Perfect for replacement or new window applications. Prefabricated panels are available with or without vents.

Install in a basement, entryway, kitchen, bathroom, family room, living room. anywhere.

Nubio Intersecting random wave pattern, provides an attractive appearance and moderate privacy.

Ice Random texture built over the Nubio Pattern. More privacy but without a fixed geometric design.

Diamond This repeated diamond pattern features a raised half sphere in each for a stylish look that also allows for privacy.

Clarity This see-through block provides a dramatic grid effect, undistorted vision and maximum light transmission.

Comparison

	Single Pane Window 1/8" Flat Sheet	SEVES Glass Block Window
Energy Efficiency	Minimal Insulating Value.	Comparable to a double pane window. Eliminate drafts.
Window Treatments	Needed to control privacy, adding extra costs.	No need. Privacy controlled by pattern selection.
Maintenance	Dependent upon framing selection.	No Maintenance
Replacement	Breakage requires replacement of whole window.	Simple block replacement
Water Penetration	Could be problem with below-grade installation.	Water resistant. Acts as solid concrete block wall.
Cost	Can be expensive without providing any additional level of privacy or security.	Very comparable or less expensive.
